REQUIREMENT	NPIC PROJECT	
NA	143262NN	

1. This installation is 0.5 nautical miles west of Chou-shan on the southern coast of Chou-shan Island (Figure 1). A tunnel system is under construction and, when complete, may provide the installation with underground berthing facilities for PTFG-type vessels.

2. The naval base and shipyard facilities (Figure 2 and Table 1) consist of two underground tunnel entrances (one complete and one under construction), a finger pier, a pier approach, a floating drydock, three offshore wharves (two of which are connected by a catwalk), an end-haul marine railway, a transverser, a launch cradle, a cofferdam, a double-bay fabrication building, and numerous support buildings.
